

DESIGN LETTERS

Design from Copenhagen

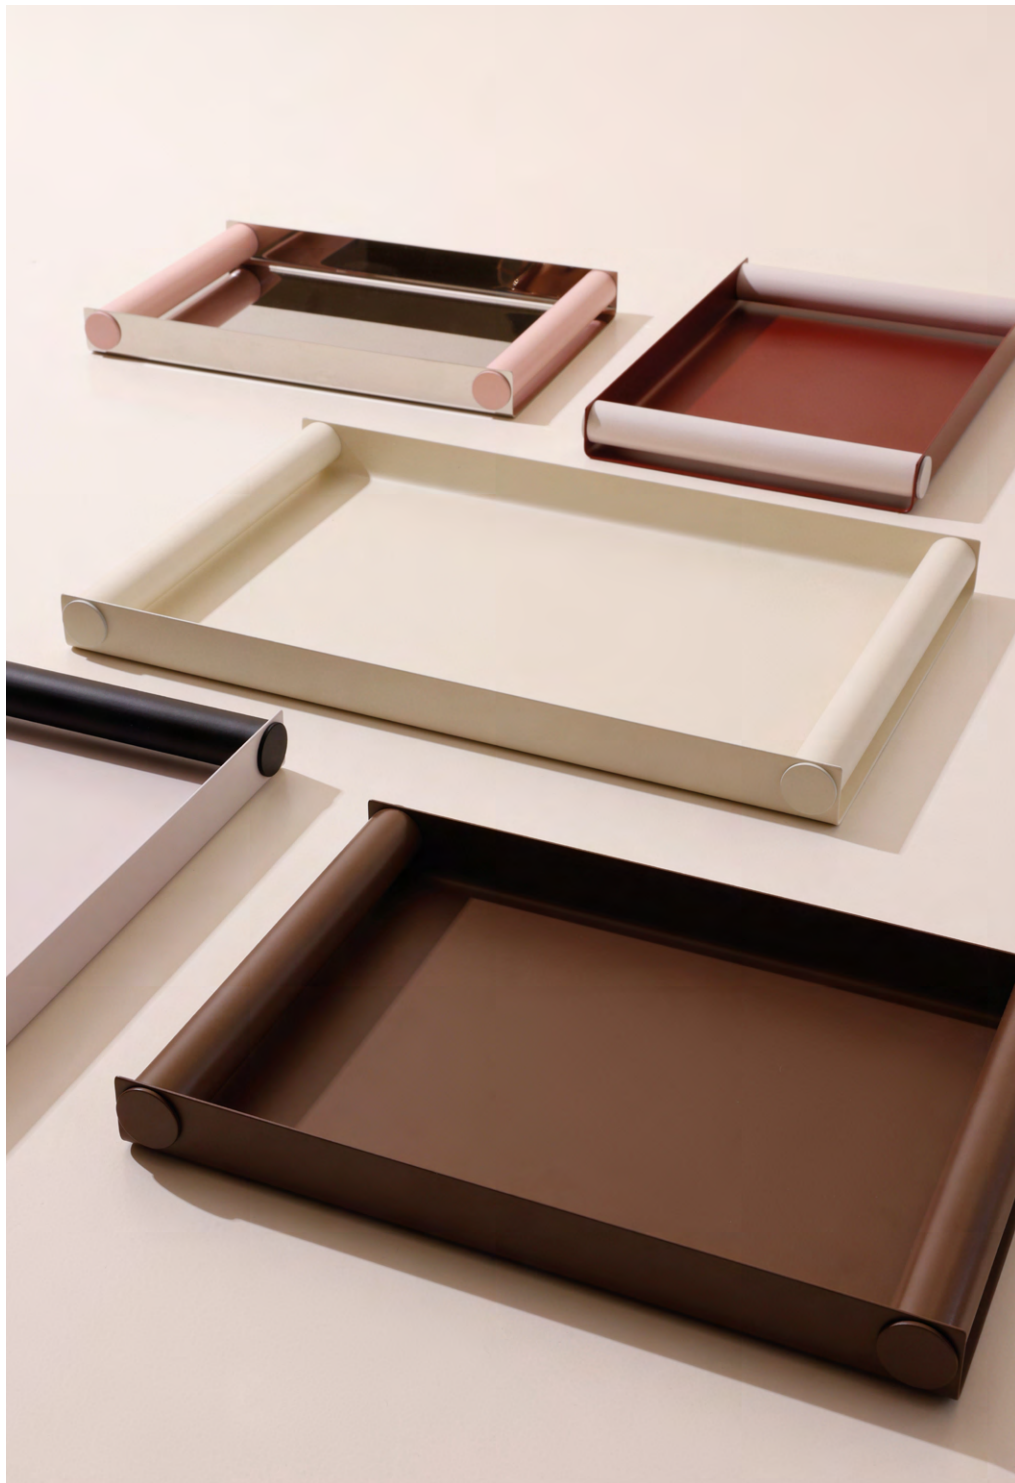

Back to the basics

Since the beginning in 2009, Design Letters has been defined by simplicity. Minimalism expressed through highly functional design.

We have decided that it is time to return to our roots. To the lovable Scandinavian simplicity that blends beautifully into any setting. Not with a wide range of objects, but with a few core items that make everyday life a little more beautiful. We hope you'll love this new chapter.

Copenhagen, August 2026

Ray Tray has become one of our signature pieces. Simple in expression, yet full of character. Now, two new shades join the collection: A rich chocolate brown and a timeless creamy white. Designed to serve, style and organise wherever you need it around the home.

ANNIVERSARY EDITION

In October 2026, it will be 15 years since we launched our iconic letter mugs. For 15 years, the mugs have been part of countless everyday moments, across generations and in homes of both young and old. While many things come and go over time, our letter mugs endure. We're proud to have kept this special product alive in a consistent way because it affects the consumer positively. That's why people continue to use it, keep it, and still value it after 15 years.

To mark the anniversary, we are launching a special collection featuring Arne Jacobsen's Vintage ABC in a timeless beige colour. The anniversary collection will be available exclusively through a selected group of retailers.

STORD

STORD is a fusion of the Danish words stol and bord — chair and table — perfectly capturing the versatility at the heart of this compact, functional piece. Seat today, table tomorrow. Two new editions now join the family: a statement-making stainless steel version and, naturally, a timeless black.
